**On the release of Incoterms® 2021, ICC Secretary General John W.H. Denton AO said:**  
"Incoterms® 2021 rules make business work for everyone by facilitating trillions of dollars in global trade annually. Because they help importers and exporters around the world to understand their responsibilities and avoid costly misunderstandings, the rules form the language of international sales transactions, and help build confidence in our valuable global trading system."
